

PROGRAMME AIM

The aim of the program is to prepare the students for senior management, executive-level positions and entrepreneurs as it helps them to acquire managerial competencies including critical thinking skills, systems thinking skills, team building skills, decision-making skills and ethical leadership skills, required for managing the affairs of a business enterprise. An MBA degree would prove to be beneficial for those, who work in senior managerial and executive positions in business organizations. An MBA program offers a range of benefits for the successful applicants, including:

Business Knowledge: The MBA program educates the students about business and all its related aspects. Students also gain an understanding of the business strategies, business concepts and business skills.

Leadership Abilities: An MBA program includes rigorous training sessions, assignments, presentations, group projects and discussions. Students thus acquire the essential skills, which will help them to administer the business affairs, in the professional field.

Networking: The alliances that the students form with fellow students and the network that the students build up, is deemed as one of the most important and valuable aspects of an MBA program.

Admission Procedures

Candidates seeking admission in Texas must pass the entrance tests of Lincoln University, i. e. LU-MAT, as well as the group discussion and interview conducted by Texas. The final and ultimate decision regarding the admission is taken by the admission committee.

CAREER OPPORTUNITIES

Degrees are acquired with the purpose of advancing career prospects. As far as an MBA degree is concerned, the only difference with other degrees is that an MBA degree is considered as the most valuable post graduate degree as it offers exciting and diverse job opportunities. This difference is also noticeable with respect to career prospects, pre-MBA and post-MBA. An MBA degree enhances the business knowledge of the students, which will enable them to prove their competency in the professional field and also help them to acquire senior positions in organizations.
